10 Sir:

This is a response to the Office communication, Notice of Non-Compliant Amendment, mailed 05/25/2004. We have amended the Specification, as follows:

Page 10, Line 23: after the word "clusters", a phrase typically less than 1,000 is now added.

15 (b) operating an atomizer means 8 to produce ultra-fine liquid droplets (each droplet containing a small number of nano-size clusters, typically less than 1,000) to constrain or terminate the growth of these nano clusters;

Please let us know should you require any additional information from us. Thank you.

Respectfully yours,

Wen C. Huang      Lulu Song
